

The screenshot shows a Postman interface with a collection named "COMP3095-ICE". A GET request is being made to the URL `https://api.openweathermap.org/data/2.5/weather?q=Toronto&units=metric&appid=7745a6303553c7c6533932a7791f559c`. The "Params" tab is selected, showing query parameters: `q` (value: "Toronto"), `units` (value: "metric"), and `appid` (value: "7745a6303553c7c6533932a7791f559c"). The response body is displayed as JSON, showing the current weather conditions for Toronto.
